## GROUPS UPDATES

**Cheetahs**— The Cheetah group have been loving the outdoors, exploring the changes in season and investigating the different mini beasts they have been finding. A handful of the Cheetah group found a 'Pale Tussock Moth' caterpillar and used their magnifying glasses to investigate its appearance. They then helped Charlotte use the iPad to research its species and qualities. The Cheetah group are really starting to show their own individual interests and getting stuck into their play. Keep up the good work :)

**Sharks**— The sharks have been very busy this half term and have been having lots of fun! We have been enjoying our role play area, playing games such as; mums and dads and animals. We have also enjoyed lots of painting activities and experimenting with mixing colours.

**Pandas**— All the panda group have settled in so brilliantly and we are all getting along famously. We have really enjoyed den building, pizza making and bug hunting particularly this first half term.

**Elephants**— The elephant group have been having so much fun in yorkies! We have been experimenting with different textures, such as; slime and play dough, and using different tools to see what we can make. We have really enjoyed spending time in the mud kitchen; bug hunting, making potions and using actions to tell the story of 'the three little pigs'.
